TO OUR CUSTOMERS

THIS IS A CATALOG OF DEPENDABLE THINGS

We do not sacrifice quality for price. You cannot get something for nothing. Our rapidly growing trade is with the class of people who are willing to pay a reasonable price for merchandise of quality. We do business on this principle—one good plant that grows and blooms is worth half a dozen that are grown so crowded and weak that they never make a good plant, no matter how you pet and fuss with them.

Our list is not as large as some but you will find that we have discarded the varieties that are not suitable here and list only those we know will prove satisfactory to you.

SERVICE

Service means quality of goods plus the ability to care for your orders in such a manner that you will come again—Our ever-increasing trade shows that we have both and we are giving them to our customers.

Any order that does not prove satisfactory in every way we are ready and glad to make right—if proper claim is made within a reasonable time after time of shipment.

Errors. If goods received are not as expected compare with order, read Catalog carefully, and if we are in the wrong, write us at once. Every just complaint will have immediate attention.

Remit by bank draft, express order, postoffice order or registered letter.

To Responsible Parties goods will be sent on approval.

Plants by Express. Have your plants, shrubs, etc., sent by express when you can possibly do so. Under the new ruling they go at special rates in Iowa, making the cost very reasonable. We guarantee safe arrival of all goods by express.

NOTICE. Plants by Mail. Add 10c per dollar on all orders for plants to go by mail. Prices given in this catalog are not prepaid. Postage or express is to be paid by purchaser. All large plants must be sent by express.

POINTS ON THE CULTURE OF FLOWERS

Treatment of Plants Received by Mail. If plants are wilted immerse them in water, without removing the packing material and allow them to remain for half an hour. Then unpack and set in small pots in rich fibrous loam, shade from the sun and sprinkle foliage every day being careful not to overwater the roots until the plants begin to grow, after which they may be shifted to larger pots if necessary.

Soil in Which to Pot Plants. The best soil for most plants is composed of two-thirds good garden soil, and one-third well-rotted manure, well mixed up together. If not naturally sandy, it is well to add some sharp sand.

Watering. Whenever the plants are dry, water so that the earth will be saturated, and no more. No water should be allowed to remain in the saucers under the pots except in the case of aquatic plants. Soft-wooded plants require much more water than hard-wooded ones.

Drainage is of the utmost importance. Every large pot should have at least an inch of broken pot, shredded moss or charcoal in the bottom.

Syringing. All plants are benefitted by liberal spraying two or three times a week on the under side of the leaf.

Air. Ventilate well every day when air above freezing point can be admitted. Do not allow cold air to blow directly against plants.

Insects. One of the most disgusting of these is the Scale which attacks the Ferns, Palms, Ivies, etc., lodging on the stem and under side of leaf. There is no remedy but scraping off and destroying. A severe scrubbing with an old tooth brush and soap will remove the scale. Mealy bugs lodge in the axils of the leaves and are easily removed by using an old tooth brush. Red spider shows itself in a brown died condition of the leaves and is an indication of too dry an atmosphere. Sponge, sprinkle or wash the leaves often and thoroughly. The Green Fly or Aphis, is best destroyed by tobacco smoke, if the smoke can be confined about the plants; otherwise a tobacco tea, made by steeping one pound of tobacco stems in four or five gallons of water, can be used. Dip the plants in the liquid, or sprinkle them thoroughly with it; or moisten the plants with water and sprinkle tobacco dust over them, letting it remain until the usual watering washes off.

Worms in the Soil. Lime water will usually expel them without injury to the plant, one part lime to twenty parts of water, and when clear, give one or two waterings.

Mildew. A whitish or moldy appearance of the leaves. It is caused by a sudden change in the atmosphere from great heat to cold, or by a draft from open windows or door. At first appearance dust them with sulphur.

PRICE OF INSECTICIDES

Tobacco Dust. 20c per pound.

Tobacco Whale Oil Soap. 20c per $\frac{1}{2}$ -lb. pkg.

Nicotine Paper. 8c per sheet, 4 sheets for 25c.

Nicotine Extract. 60c per $\frac{1}{2}$ pint bottle.

If by mail add 5c per lb.

CUT FLOWERS

In design work and loose cut flowers we are better than ever prepared to care for your wants. With 60,000 feet of glass devoted to flowers, our excellent facilities for storing and shipping, we are sure that you cannot do better elsewhere. We carry on hand the largest stock of seasonable cut flowers in Central Iowa, even in the largest cities few firms carry the stock that we do. Frequently persons are undecided what to order and at such times you may leave the selection to us, stating what you wish to use them for and the price you wish to pay.

WHEN TO ORDER. Give us as much time as possible. Do not be afraid to order even a week or two ahead. You are sure of getting just what you want. Where an order is not sent in until the last thing, we sometimes have to substitute either in kind or color of flower wanted.

HOW TO ORDER. All customers will please notice that orders for early morning shipment must be in the night before. Our postoffice closes at 7 p. m. If you are not sure that your order will reach us before that time, it is safer to wire us. Telephone messages can be sent after 8 p. m. at considerable reduction. It is always best to telephone or telegraph your order when time is limited, as you are then sure of reaching us on time. **Don't trust the mails;** trains are often late and we often do not receive orders on time.

SUNDAY MAIL. If your order is sent by mail for Monday shipment, be sure and affix a special delivery stamp if letter is liable to reach here on Sunday, as we do not receive all our Sunday mail until Monday morning.

FLOWERS BY EXPRESS. All cut flowers, designs, etc., packed to carry long distance safely, either winter or summer.

FLOWERS BY MAIL. On request we often send small boxes of loose cut-flowers by mail, as a rule they reach their destination all right, especially carnations, but much prefer sending by express, as flowers carry better. If orders are to go out by mail, add 20c postage which includes special delivery stamp. We positively will not be responsible for time of delivery or for flowers freezing in transit by mail.

TERMS AND CONDITIONS. Cut flowers are strictly cash, and payment must be made immediately on receipt of flowers. We seldom send C. O. D. It often embarrasses those who buy, and it is a needless expense.

COMPLAINTS to be allowed should be made immediately on receipt of flowers. We stand ready always to make any wrong right.

RESPONSIBILITY. While we exercise the greatest care to have all flowers reach their destination on time, and, will not ship unless we are reasonably sure **they will reach** you on time, we positively will not be responsible for delays in trains, wrecks, or express agents' negligence. **Should your flowers reach you too late, accept them under protest, do the best you can with them. If for a funeral, lay them on the grave, we will share the loss with you and take care of any claim against express company.**

OUR SHIPPING FACILITIES. The fact that the great harvester companies have their general agencies in this city is in itself a sufficient guarantee that there are none better in North-Iowa.

Flowers for the House the Season Through

You enjoy having flowers in the home and having them on the table when you have a few friends in; why not have them oftener? Part of the year you cannot grow them, but we make it easy for you to have them whenever you like, at a small cost. **Our \$1 and \$2 boxes of cut flowers sent prepaid anywhere is always suitable whatever the occasion.**

A BIRTHDAY

Have you a friend you would love to remember, then **say it with flowers**, the most beautiful of remembrances. Our assorted boxes, \$2.00 and up, are very appropriate—say when they should reach destination.

For the home, a party, for a birthday, or for a sick friend. Just mail us your card and with the address of the person who is to receive it, and we will do the rest. We know you will be pleased.

VERY IMPORTANT

How to Keep Your Cut Flowers

All design work. Leave in the boxes and set in a cool cellar until ready to use.

Loose Flowers. Remove from boxes at once, clip the ends of stems and put them in water and set in cellar, using deep vase with plenty of water at bottom, and see that the stems are down in the water. By securing loose flowers early and keeping them 12 to 24 hours before using, you double the value of the flowers.

Assorted Boxes of loose cut flowers and greens, suitable for any occasion, at \$1, \$2, \$3, \$5 and \$10. Try one of our \$1 boxes for your sick friends. It will surprise and please them, and nothing will cheer them more. Sent prepaid anywhere for \$1 and upward.

Butterfly Roses

HOLIDAYS

Owing to the extraordinary demand, it is sometimes impossible to give you exactly the kind of flowers ordered. We do our best, but our customers will find we can give better values in mixed boxes of our own selection, \$2, \$3, \$5, \$10.

DECORATION DAY

One of the hardest days of the year to supply the demand. If the weather is hot and damp, it is a time of poor quality and high prices. We shall endeavor to bill all stock at most reasonable prices, according to quality. Prices from May 28th to June 1st will be about as follows:

Carnations, assorted colors only and our selection, \$1.50 and \$2.00 per dozen. Purchaser's selection of color, \$3 per dozen; **Roses**, \$1.50 and \$2.00 per dozen, extra fancy, \$3.00 and \$4.00 per dozen; **Columbia**, \$3.00 and \$4.00 per dozen, extra long, \$6.00 per dozen; **Jasmines**, 60 cents per dozen, \$4.00 per \$100; **Gladiolus**, \$3.00 and \$4.00 per dozen; **Lilies**, \$4.00 per dozen. Count of lilies includes buds.

MOTHER'S DAY

Usually observed in all churches the second Sunday in May. Wear a flower for mother's sake, a white one for the mother that is dead, and a colored one for the one who is living.

Carnations. Assorted colors only, and our selection of color, \$2.00 per dozen. Purchaser's selection of color, \$3.00 per dozen.

Roses. \$1.50, \$2, \$3, \$4 per dozen. Short stemmed roses, assorted colors, \$1.50 doz.

SPECIAL NOTICE. All carnation orders for Mother's Day are taken by us with the distinct understanding that part Roses may be substituted for carnations if necessary.

FLORIST TELEGRAPH DELIVERY

We are members of Florist Telegraph Delivery Association of America.
Flowers Delivered to Any Part of the World

We have a representative in, or near every city, town or hamlet, who will fill and deliver anywhere any order, on short notice through our co-operate telegraph system.

PATRIOTIC DESIGNS

We are well prepared to handle any order for the funerals of our Soldier Dead. Any special form made up in a satisfactory manner at reasonable prices. All designs for Military Funerals are draped with finest quality red, white and blue ribbon. We quote two very appropriate and beautiful pieces.

Caladium Esculentum

On all small orders to go by mail add 10% for postage.

GLADIOLI—The Most Popular Summering Flowering Bulb

You are sure of fine flowers if you plant Gladiolus, the most attractive of all summer flowering bulbs. They need only a little culture to keep the weeds down, will grow in any good soil and with ordinary rainfall seldom fail to flower.

The best time to plant is about the first of May, but they may be planted by the 20th of April in the Central States. A succession of bloom may be had from July to October by making planting ten days apart.

Bed of Coleus

CHrysanthemums

The Chrysanthemum is, without doubt, the queen of autumn flowers. Their large blossoms of every character and form attract the attention of all who are interested in flowers. They are the most popular flowers. We are continually adding new varieties to our large stock, and offer the cream of the best standard sorts of fine, well-grown plants. Compare our list with any specialist.

Those wishing large quantities to grow for shows should write us, stating the quantity desired, and we will make you special prices and guarantee you satisfaction.

Feeding. After September 1st, all plants should be fed about once a week, alternating with weak manure water (at the rate of one pail of manure to barrel of water) and ammonia water (at the rate of a tablespoonful of ammonia to pail of water). After buds commence to open, feed but little, and that very weak.

WHEN TO PLANT. Any time after the ground can be worked.

SOIL. Dig the ground deep. Put in quantities of manure as the Chrysanthemum is a gross feeder.

DISBUDDING AND STOPPING. When your plant is 6 to 8 inches high, cut back to a height of 4 inches. Allow one flower to a stem. If you want fine flowers, do not be afraid to cut off all the side buds. Leave only the center bud on each stem to mature.

WHEN TO LIFT. In this locality plants should be lifted into large pots or boxes by August 20. After lifting, drench thoroughly and never allow them to suffer for water. Give them manure water if possible, once a week. If protected, they need not be brought into the

house until well in October, and when brought in, place in a room without fire, and give plenty of air, when not frosty.

GREEN AND BLACK APHIS. There is no remedy for this troublesome pest except tobacco in some form, either smoke or tea. We use green and black aphids indoors. Price 5 cents per sheet. Tobacco dust for sprinkling on doors, 15 cents per pound.

A SELECT LIST OF BEST DAHLIAS (Priced Separate)

The Dahlia is now taking first place among autumn-flowering plants; this is largely due to the splendid new sorts that are being brought out in the Cactus and Decorative class. There is nothing that can equal them in range of color and abundance of bloom. Any good, rich garden soil, not too wet, will grow good Dahlias. Show and Decorative types are the smoother petals. Cactus are the curled and twisted petals as shown in the cut.

Plant Dahlias in open ground, about the first of May, if the ground is at all cold and wet defer planting until later date. With us, the started plants have proved as good as the tubers. In fact, they come into bloom more quickly than the tuber and are cheaper.

Always stake your Dahlias as soon as they are tall enough, using a good stout stake at least 4 feet high. In the fall, after hard frost, cut the tops off within 3 inches from the ground, take up and store in a cool cellar free from frost.

SPECIAL OFFER ON DAHLIAS. We have a fine lot of best named varieties that did not bloom early enough last year to true up. We offer them in assortment divided clumps—7 for \$1.00. They will give you satisfaction, as they are not only very cheap, but they are valuable sorts.

GERANIUMS

A Bed of Flowering Geraniums Bordered With
Mad. Salleroi.

18 Geraniums from 4-inch Pots and 24 Geraniums Mad. Salleroi, for \$5.50 by express.

In ordering state variety wanted. They should be all one variety for effect.

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found very large and complete. We have taken great care in selecting the different varieties showing distinct characteristics of their own.

HOW TO HAVE A GOOD BED OF GERANIUMS

Plant in medium soil, not too much sand or manure. See that they are in a bright, sunny place. After they once become established do not over-water as this will have a tendency to make them go to leaf growth; when weather becomes very hot a light mulch is beneficial. Always keep soil around plants stirred to a

depth of at least one inch. Keep plants free from all old flowers and leaves and if any of the plants become ungainly, pinch off ends of long shoots.

For massing in beds and for window boxes and vases, no varieties excel B. Poitevine, S. A. Nutt, Abbie Schafer, Countess, A. Richard, T. H. Trego, Madame Chevalier, Mrs. Hill, Telegraph and Jean Viaud in the respective colors.

SPECIAL NOTICE—Have your Geraniums shipped by express—it takes a long time for them to get over mailing.

SCENTED GERANIUMS

Exceedingly useful on account of their fragrant foliage and largely used in baskets and bouquets. Also used for making up toilet waters, fragrant jars, etc.

Variegated Leaf. Sweet scented. 20 cents each.

Skeleton Leaf Rose. 25 cents.

Large Green Leaf. Sweet scented. 15c and 25c each.

Mrs. Layal. The flowers are of medium size and have white throat. Each petal is shaded toward the center with a rich lavender pink and a dark maroon blotch in the center; is of easiest growth, dwarf in habit and literally covered with flowers. 25 and 50 cents each.

POINSETTIA

This beautiful Christmas-blooming plant is the admiration of all who see them. Would not advise you to buy them before November securing the plant in full bud, ready to bloom. A description of the plant is hardly necessary, as you have all seen pictures and descriptions in the magazines. Price for Christmas-flowering, strong, 4-inch pot plants, 50 cents each; pans made up of 3 plants, \$1.50.

Kentia Palm

PALMS

Two or three well-known Palms in a house produce a better decoration than a hundred small plants and are not so much trouble. They are now the most fashionable plant for all decorative purposes. Keep in a moderately warm room; sponge off the foliage frequently with warm water and whale-oil soapsuds and then with clear water; give plenty of water, especially in summer and do not expose to the scalding sun rays in summer.

Kenita Belmoreana. An elegant species in which the Pinnas are beautifully curved and reflexed. One of the easiest to grow in cultivation. Nice plants \$1 each; large size, \$2, \$3 and \$5 each.

Kentia Forsteriana. Similar to the preceding, but taller and more robust. Nice plants, \$1 each. Large size, \$2, \$3 and \$5.

Areca Lutescens. A most elegant palm. It is easily grown and is useful to every state of its growth; fine color, graceful habit, stems golden yellow, tall growers. \$1, \$2 and \$3 each.

Latania Bourbonica. (Chinese Fan Palm). One of the most desirable for general cultivation. Especially desirable for center vases, etc. \$1 and \$2.

Phoenix Ruebleana. Dwarf feathery growth. Very suitable for center of fern dishes. Takes the place of the cocoa palm and easier to grow. 75c and \$1.00.

PENNISETUM RUPPELIANUM

One of the most beautiful border or bedding plants, producing long, feather-like purplish blooms, very graceful and ornamental. Very suitable for planting between rows of Cannas and Salviyas. Small plants, 15 cent each; \$1.50 per dozen; large, 25 cents each, \$2.50 per dozen.

PANDANUS

Veitchii. Fine plants. 4 inch pot, \$1.00; 5 inch, \$1.50.

PANSIES

The Pansy begins to bloom in February and continues until late in the fall. Should be placed in very rich soil and watered freely. We offer a fine collection of carefully grown, from pots, that are sure to give satisfaction and bloom freely.

Giant Varietis. Colors separate. 60 cents per dozen.

Our Special Mixture. Containing a fine mixture of all varieties. 75 cents per dozen, \$5 per 100.

Lobelia Gracilis, Blue and White. Trailing suitable for baskets of window bordering, 10c each, 75 cents per dozen.

Pyrethrum, or Gold Feather. For bordering beds, keeps its color throughout the summer, 5 cents each, 60 cents per dozen, \$3.50 per 100.

Caladium Esculentum. For center beds. Started in pot, 30c and 50c each.

Those wanting large quantities of bedding plants, such as Geraniums, Coleus, Alternanthera, Cannas, etc., will do well to submit their list to us before buying.

GREENHOUSE PLANTS

General list, in which, owing to limited space, we are obliged to omit descriptions.

Lobster Cactus. (Christmas Cactus). 15 cents and 25 cents each.

ROSES

Plant in sunny location, in deep dug, well enriched soil. After plants are set out keep soil stirred; do not plant in hole in sod and expect them to bloom. Cultivate same as any garden vegetable and you will be repaid for your work and trouble.

Culture for Winter Bloom. Keep in a room with temperature 60 to 65 degrees with all the sunlight possible. Sprinkle under side of foliage every morning if sun is shining. Do not sprinkle on cold, dark days unless the atmosphere of the room is very dry. As soon as the bud is matured, cut the stem down to within three or four inches of the main stalk. Use rotted cow manure in soil. A little weak manure water at the roots once a week is very beneficial if the plant is growing strong.

Insects and Diseases. Greenfly is easily subdued by dusting the leaves with powdered tobacco. The rose-slug is quickly killed by dusting the insect or the whole plant—with road dust on a sunny day. Mildew, which affects the leaves in the early spring and fall, is due to the variable temperature. For this dust powdered sulphur on the leaves. Roses must be sprinkled thoroughly every sunny day. In the morning is preferable.

Roses by Mail. Unpack immediately. Do not expose roots, but place at once in a shallow dish of tepid water. Toward evening carefully plant in a good mellow soil, thoroughly firming the moist earth around the plant. Shade from the mid-day sun just after planting. If you can possibly avoid it do not have your plants sent by mail—the small amount of express you will have to pay will be more than made up on the extra value of plants we will send you.

Roses by Express. They are usually packed with all or part of the earth adhering to each plant. They invariably arrive in good order. If the balls of earth are dry hold carefully in a pail of water for a moment, then firm the earth carefully around the balls. Never plant a rose when dry at roots; always soak before you put in the ground, then firm the soil thoroughly around them and water again.

IF ORDER IS TO BE MAILED ADD 10% FOR POSTAGE

Golden Ophelia

STANDARD COLLECTION OF TEA AND EVER-BLOOMING ROSES

These Roses are especially suited for summer bedding where large quantities of blooms are wanted. Are not hardy in this climate.

Bon Silene. Bright cheery crimson; strong, vigorous grower; wonderful bloomer.

Duchess de Brabant. Light rose, heavy shading of amber and crimson.

Gruss an Teplitz. Richest scarlet, shading to a velvety crimson; larger than Hermosa.

Hermosa. Rosy pink. An old garden favorite.

Mad. Cecil Bruner. Popular baby pink rose, comes in clusters, used largely for corsage.

Suitable for summer planting. The flowers are much larger and more perfect than the preceding list but not in such quantity.

Madam Cochet. Rich healthy foliage, longer stout stems, extra large and full. Bright rose.

Angeles. A grand new white, almost as large as Kaiserine, but a better bloomer.

Mad. Butterfly. A glorified sport of Ophelia, a wonderful shade of old gold, orange and yellow.

Crusader. A velvety crimson scarlet, in a class by itself; good size flower; fine long stem; free in growth and blooming. 30 cents.

Kaiserine Aug. Victoria. Best summer blooming white.

White Killarney. Identical with above, except color, which is pure white.

Ophelia. Clear, bright salmon, often deepening toward golden pink; wonderfully fragrant, with long, pointed buds and stiff stems.

Columbia. The Rose of all Roses, beautiful, clear, glistening pink, exceptionally strong grower, long stems, keeping qualities are very good. One of the best summer flowering roses.

Premier. Deep, rose pink and very free flowering. Large size, good keeper. 25 cents.

Golden Ophelia. Similar in growth with Ophelia. Color, clear golden yellow. 25 cents.

White Ophelia. Delicate peach shading to white in growth like Ophelia. 25 cents.

Our selection, ten strong plants from 3-inch pots, especially suited for summer bloom, for \$1.75, by express. These will give you more satisfaction than \$3 invested in cheap little roses.

BABY RAMBLERS

All perfectly hardy and wonderful blooming qualities. Grow about 24 inches high, are ideal for bedding out as they flower almost continuously. Flowers in clusters like Crimson Ramblers.

Pink Baby Rambler. Clear rosy pink, equal in growth to the red.

Red Baby Rambler. Plant vigorous, foliage dark and glossy. Flowers rich crimson.

Jessie. An ideal Rose, possessing bright green foliage exempt from mildew, with a bushy branching growth; bright cherry crimson.

Baby Tausendschoen. Similar to the climbing variety, its charm lies in the variable coloring, changing from white to shades of pink.

Price of Baby Ramblers; small plants, 25 cents each; large size, 50 cents each; extra large specimens, \$1.50 and \$2.00 each.

HARDY ROSES—A Selection of the Best

Knowing that there is a greater loss of Hardy Roses than any other dormant plant, it shall be our earnest endeavor to supply our customers with the very best plants possible, guaranteeing them to be in good condition when they leave our hands. We offer this year pot grown plants only in Hybrid Perpetual. Too much loss with dormant stock.

HOW TO PLANT—VERY IMPORTANT

When planting, care should be taken to set plants deeply, planting them at least two inches below first point or branches and pounding the soil firmly around the roots. Don't crowd the roots, but dig a good, large hole, spreading out the roots; work the soil around the roots and pack firm as you fill the hole. When about two-thirds full of soil, give thorough watering, then when water soaks away, fill up the hole and firm the soil with your boot. Never for an instant expose the roots to the hot sun. If weather is very warm, protect the dormant tops with straw, sacking or other protecting material, until the tops swell, gradually accustoming them to the light and air. By carefully observing above, you will have no trouble to make your dormant plants thrive, where by careless planting and after-care, one-half will die.

Winter Protection for Rose Plants. This may be done with material most convenient at hand, such as leaves, straw, light manure, street sweepings, pine and cedar boughs, etc. Large Rose bushes will stand several degrees of frost and the covering should not be put on until winter has set in.

How to Make Roses Bloom. In the axil of each leaf is a latent bud. Should the long, strong shoots or branches be placed and kept in a horizontal position, each latent bud will produce many flowers. Cut wooden hooks and peg the long, straight shoots firmly to the ground. These branches will not only flower, early and late, but will make robust wood, which can be treated in the same manner the following spring. Monthly and Hybrid Roses can thus be made to bloom continuously.

Suckers. Always remove any suckers that come up at side of plants—they are from the root graft of the rose, and they will not bloom and only rob the vitality of the plant.

HYBRID PERPETUAL ROSES.

Frau Karl Druschki. One of the finest pure white roses.

General Jacqueminot. Rich, velvety, crimson, changing to scarlet crimson. Very fragrant.

Magna Charta. Extra large, full flowers; very double, clear rose, blushed with carmine.

Mme. Plantier. Grows in bush form, flowers in great abundance in June. Pure white.

Mrs. John Laing. Beautiful soft pink, delicious fragrance; of exquisite shape; very large and double.

Prince Camille de Rohan. Rich, dark velvety crimson, passing to maroon, shaded black.

Ulrich Brunner. It is of a rich, glowing crimson scarlet color. Free, continuous bloomer.

PRICE OF HARDY ROSES

Two year old pot grown on own roots, April and May delivery. 75 cents each; \$8.00 per dozen.

One year old, own root plants, pot grown, April, May and June delivery, 30 cents each, \$3.00 per dozen.

ROSA RUGOSA

Rugosa Roses are sturdy bushes, 3 to 5 feet in height, and are covered with glossy green foliage and clusters of beautiful single flowers, which emit a fine odor. They bloom continuously and are covered during autumn with bright red pods.

Alba, White, Rubra. Red.

MOSS ROSES

A class of Roses which are much admired. The beauty of the flowers consists in the delicate mossy covering which surrounds the bud.

Blanche Morea. Pure white.

Salet. Light rosy pink; extra free bloomer.

Crimson Globe. Dark crimson; best in its class. 75 cents each.

HARDY CLIMBING ROSES.

Dorothy Perkins. Strong, vigorous growth. Flowers are borne in clusters, of a beautiful shell pink, full double.

White Dorothy Perkins. A seedling of Dorothy Perkins. Magnificent clusters of gleaming white flowers.

Green Variety. Similar to the variegated, but leaves beautiful dark green, 10 and 20 cents each, \$1.00 and \$2.00 per dozen.

Hardy Green Vinca. Very suitable for grove use, 15 cents each, 4 for 50 cents.

VIOLETS

The Violet is so well and favorably known that an extended description of its characteristics is hardly necessary.

Princess of Wales. Large single flowers of true blue. Strong, stiff stems; fine for cutting; intensely fragrant. 15 cents each.

Mrs. C. W. Fry. Long stems and large flowers, deep blue. Very prolific. 15 cents each.

SMILAX

There is no climbing plant in cultivation for winter use that surpasses this in the graceful beauty of its foliage. It is indispensable for cut flower work and its hard texture enables it to be kept without wilting for several days after being cut. Of no use outside in summer, 10 cents each; large size 20 cents each.

SALVIAS

The Salvias now rank with the geranium in importance as a bedding plant. These French varieties are especially valuable on account of their dwarf and compact habit, and coming into bloom in mid July.

Clara Bedeman. Tall, upright grower; spikes grow erect.

Fireball. Dwarf, compact habit, very free flowering. Flowers brilliant scarlet.

PRICE OF SALVIAS: First size, 10 cents each, \$1.00 per dozen, \$6.00 per 100. Second size, 15 cents each, \$1.50 per dozen, \$10.00 per 100; third size, 25 cents each, \$2.00 per dozen; \$16.00 per 100.

**VERBENA**

The Verbena is one of the prettiest and most popular of the flowering plants suitable for forming beds on the lawn. It commences to flower and spread from the first day the plants are set until late in the autumn, every day becoming better and more handsome. Colors are white, blue, purple, pink, rosy crimson, striped. 75¢ per dozen. Large size, \$1.00 per dozen.

HARDY PLANTS, SHRUBS, VINES, ETC.

(Ready for shipment April 15 to May 1. Send us your orders as early as possible.

We carry in stock only the best and most popular varieties of hardy shrubs.

BARBERRY, THUMBERGI

Where a low, dwarf, deciduous hedge is wanted, nothing equals this beautiful Barberry. It is of spreading habit, growing extremely thick from the base, and requires but little pruning to keep it in shape. The leaves are small light green, and toward fall assume rich, brilliant colors, the fruit or berries becoming scarlet.

(NOTE—This is not the variety that causes rust on grain). Absolutely hardy in all parts of the country. 12 to 15 inches, \$1.50 per dozen, \$10.00 per 100; 15 to 18 inches bushy, .35c each, \$3.50 per dozen, \$25 per 100.

LONICERA (Bush Honeysuckle)

Morrowii. A neat shrub of symmetrical growth. Red flowering, 40c each; white flowering, 50 cents each.

SAMBUCUS (Elder)

Aurea Leaves are bright yellow, giving best effect when planted with other shrubs; blossoms resemble common elder and appear in July. Very hardy. 40c each.

SYMPHORICARPOS (Snowberry)

Racemosus. Small pink flowers and large white berries that hang on the plant throughout part of the winter. 40c each.

Vulgaris. (Red-fruited.) Foliage, flowers and fruit small; fruit red; hangs all winter. 50c each.

CORNUS (Dogwood)

Siberia. (Red-branched.) Tree-like shrub, with white flowers in June, followed by red berries. 40c each.

SPIREA

All the Spireas bloom with riotous extravagance which makes them quite striking. Their individual style, color and habits of growth differ so markedly, that a collection of varieties will insure bloom the entire season and still evade the monotony of repetition.

Van Houtii. The most showy of all Spireas and one of the best flowering shrubs in cultiva-

Hydrangea Panacalata Grandiflora

tion. The plant is a rather tall, upright grower, with long, slender branches that droop gracefully with their weight of foliage and flowers. Flowers pure white in great clusters and whorls forming cylindrical plumes two feet long, 12 to 18 inches, \$1.50 per dozen, \$10.00 per 100; 18 to 24 inches, 25 cents each, \$2.50 per dozen; \$18.00 per 100; 24 to 30 inches, bushy, 40 cents each, \$4.00 per dozen; \$30.00 per 100; extra large, 75c each; \$4.00 per dozen; \$60 per 100.

Billardi. Pink flowers, in bloom nearly all summer. Fine for planting in masses. 30c each, \$3.00 per dozen.

Golden Leaved Aurea. Foliage golden tinted, very effective massed or among other shrubs. Flowers are white. 40c each.

Antony Waterer. A bright crimson. It is also dwarf and dense in growth. When scarcely 12 inches high it begins blooming and thereafter is seldom out of flower. Small size, 30 cents each; \$3.00 per dozen; large size, 50c each.

HYDRANGEAS

Paniculata Grandiflora. Absolutely hardy, grown in any soil, and bloom the same year they are set out. They flower abundantly, bearing immense panicles of bloom, white at first, and turning to rose in autumn. To make a fine specimen, the soil should be as carefully prepared as possible. Shortening of the branches tends to increase the size of the flowers, 12 to 18 inches, 40c each, \$4.00 per dozen; 18 to 24 inches, 60c each, \$6.00 per dozen; 24 to 30 inches, 75c each, \$7.50 per dozen; extra large and heavy, \$1.00 each, \$10.00 per dozen.

New Hydrangea Snowball. This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of large size, of pure snow white, form of a large snowflake, and the foliage is finely finished, lacking the coarseness found in Paniculata. One of its most valuable characteristics is its coming into bloom just after the passing of all the early shrubs, from early June thru August, renders it doubly valuable to every owner of a garden; perfectly hardy. 35 cents each, 3 for \$1.00, large two-year-old plants, 75 cents each.

Spirea Van Houtii

DOUBLE FRENCH LILACS

Chas. X. A strong, rapid-growing variety with large, shining leaves; trusses large, of reddish purple. 75 cents each.

Madame Lemoine. Double, pure white; borne in large clusters. 75 cents each.

WEIGELIAS

Candida. White flowering variety, flowers throughout the summer. 50 cents each.

Eva Rathke. Brilliant crimson, flowering throughout the summer. 50 cents.

Rosea. Rose colored flowers, in June and July. 45 cents each.

Hardy Climbing Plants

If you have a vine covered fence of Woodbine, Bittersweet, Honeysuckle, or other vine—try a Trumpet Vine at each post or regular intervals. The effect is very striking and attractive.

Clematis paniculata

CLEMATIS, LARGE-FLOWERING VARIETIES

Ville de Lyon. Magnificent brilliant crimson.

Henrifl. Large size, single, pure white.

Jackmanii. The finest of purple. We offer this year pot grown plants only. They are not as large as field grown but are sure to grow, 75c each.

CLEMATIS, SMALL FLOWERING CLEMATIS PANICULATA

Paniculata. One of the very best vines to grow near the house, as they are free from insects, and remain neat looking throughout the whole summer. It will grow against any outbuilding, trellis, over any place, up a pole, pillar or stump. The flowers are of medium size, pure white, borne in immense sheets, and of a delicate and penetrating fragrance, appearing late in September, at a season when few other vines are in bloom. Small 3-inch pot plants, 35 cents each, 3 for \$1.00; two-year-old, 75 cents each.

JAPAN OR BOSTON IVY (*Ampelopsis Veitchii*)

The grandest hardy climbing vine in existence for covering houses, churches, schools, etc. Its glossy ivy leaves overlap each other and its long, delicate young shoots stretch up the walls with free and rapid growth. The tendrils at nearly every point cling firmly to the smoothest surface of rock or wood. The glossy leaves assume in the autumn the most beautiful tints of scarlet and crimson. The handsomest vine of scarlet for growth on brick walls. One-year out-door grown, 40 cents each, 6 for \$2.00. Two-year-old pot grown, 60c each, \$6.00 per dozen.

Woodbine (American Ivy.) Very hardy, fine for covering trees or unsightly places. 30 cents each, 4 for \$1.00.

BIGONIA**(Trumpet Vine)**

Radicans. (Trumpet Creeper.) Flowers are large, orange scarlet. Very useful for covering undesirable places, as it is a strong grower and very hardy. 35 cents each.

LONICERA**(Honeysuckle)**

Ponica. Scarlet Trumpet. Strong, rapid grower. Blooms very freely the entire season. Bright red trumpet-shaped flowers.

(Yellow Sweet.) Bright yellow and orange; fine for porches and pillars.

Price of Honeysuckles; strong, outdoor-grown plants, 50 cents each.

CHINESE MATRIMONY VINE

A vigorous growing hardy climbing vine that may be used anywhere that a vine is needed for training to trellis, fence or wall. Small purple flowers and are followed by brilliant scarlet berries. 40 cents each.

WISTARIA

This is one of the most popular hardy vines, growing very rapidly, climbing to a height of 50 feet or more. It flowers in early spring in long, drooping racemes resembling in size and shape a bunch of grapes.

Magnifica. Pale blue. 50 cents each.

Simensis Alba. Pure white, sometimes tinted light blue. 75 cents each.

HARDY PERENNIAL PLANTS

Those that die to the ground every year.

No money you can invest will give you such pleasure and permanent returns as that you invest in Hardy Plants. Once planted they stay, growing in beauty every year. Our stock of these is large and complete and covers such a wide range of variety that you can select what will give you a complete succession of flowers the entire summer and fall. The small sizes are mostly pot-grown. The large sizes, one year, field grown.

SPECIAL OFFER

One plant each of six varieties, our selection, one year old outdoor grown for \$1.00.

PEONIES

Once Planted They Will Last a Lifetime

Planting. An important point to observe is not to plant too deeply. The roots should be placed so that the crowns (or eyes) are covered with two or three inches of soil. Planting too deep is often the cause of shy blooming.

Plant with the southwest or west exposure.

Plant as early as possible in the spring, as they sprout very quickly. If order is received too late for planting we will hold that part of order and deliver early in the fall.

Our list contains the very best and most dependable varieties.

SPECIAL OFFER

Three Peonies all different, strong roots for \$1.00. Or three-year-old clumps for \$2.00. 12 all different, part named varieties, strong roots for \$6.00. This collection is made up of some of the finest varieties that names have been lost and is a bargain for one who wishes to plant a row in the garden —by express at purchaser's expense. Strictly our selection varieties.

Some of the Best Varieties that Grow

Bancroft's Beautiful Flowers

for 1924

The Geranium is the most popular plant for bedding purposes, and deservedly so, as they continue to bloom profusely in the hot summer months when other plants are scorched by sun and dry weather. The new double varieties bloom as freely as the single and make as fine bedders, being more durable.

Our list of flowering Geraniums will be found very large and complete. We have taken great care in selecting the different varieties showing distinct characteristics of their own. See pages 19 and 20.
